

### **National Cancer Patient Experience Survey**

This questionnaire is about your cancer care and treatment. Its purpose is to provide information which can help the NHS monitor and improve the quality of health services for future patients.

#### Who should complete the questionnaire?

The questions should be answered by the person named in the letter enclosed with this questionnaire. If that person needs help to complete the questionnaire, the answers should be given from their point of view - not the point of view of the person helping.

#### Completing the questionnaire

For each question please tick inside the box that is closest to your views using a black or blue pen. Don't worry if you make a mistake; simply cross out the mistake and put a tick in the correct box. Please **do not** write your name or address anywhere on the questionnaire.

If you would prefer, you may also complete this survey online. To do this, please refer to the login information which can be found in the letter accompanying this survey.

### **Important Information**

Your personal details and some information about your cancer treatment have been used to identify you to take part in this survey and will be used to analyse the survey results. These details were provided by the NHS Trust that treated you.

Your personal information will be handled securely, anonymised after analysis and before any publication.

#### Consent

By completing this questionnaire you are giving your consent for the information you provide, and the information from the NHS Trust to be used for the above purposes. You are agreeing that your personal information can be held and used by NHS England and organisations acting under its instructions. Information that does not directly identify you may be made available to research organisations. Any organisation analysing the data will be subject to strict obligations regarding the security and confidentiality of your information, and will not be allowed to use your details for any other purpose. Your personal information will not be released unless required by law or where there is a clear overriding public interest.

Public Health England uses the survey data to carry out further analysis by linking the data to the National Cancer Registration and Analysis Service. They will NOT receive your name and address. Under the Data Protection Act 1998 NHS England and Public Health England are responsible for information that they hold about you.

All name and address information will be destroyed after 3 months of completion of the survey, unless you agree in the questionnaire to be contacted again in future.

You can withdraw the information you give in this questionnaire upon request, up to the point at which data are analysed and personal details removed.

If you have any queries about the questionnaire, please call the FREEPHONE helpline number on 0800 783 1775.

Taking part in this survey is voluntary

Published reports will not contain any personal details
